Farmingtons Automotive GmbH - Review IZB 2016

Georgsmarienhütte, November 2016

This year Farmingtons Automotive GmbH from Georgsmarienhütte linked the success of the past exhibitions and presented its core competences Engineering, Prototyping, Toolmaking and Serial production at this year's International Suppliers Fair (IZB) in Wolfsburg, from 18 to 20 October 2016.

The new stand concept with a lounge character clearly focused on the companies automotive service areas and was deliberately kept simple, in order to bring the achievements to the fore.

The concept was rounded off by removable exhibits, which gave interested visitors an overview of the Production performance of Farmingtons Automotive GmbH.

New contacts and numerous interesting discussions with trade visitors confirmed the good impression and ensured a positive résumé.

At this point, we would like to thank you for your visit and look forward to seeing you again.
